

# Digital Twin for Every Manufacturing SME!

Change2Twin is a European project which supports manufacturing SMEs in their digitalization process by providing Digital Twin solutions. The concept of Digital Twin is one of the big game-changers in manufacturing and allows companies to significantly increase their global competitiveness.

## Innovation made by Change2Twin

- **Assessment Voucher:** Assessment Voucher has been one of two financial instruments offered by Change2Twin. It covers the costs of an in-depth analysis of the company's digitalization level and its readiness for the adoption of a digital twin. It is a non-refundable grant provided on a competitive basis and amounting up to €10.000 (lump sum). In two rounds of open calls 33 beneficiaries from various manufacturing industries benefitted from the assessment, many of them also applied for the Deployment Voucher.
- **Deployment Voucher:** The Deployment Voucher has been the second funding scheme offered by Change2Twin. It's purpose is to help manufacturing companies to create and deploy their first digital twin. The scheme offers an 11-months support programme for beneficiaries. The maximum non-refundable grant per company is up to €90.000. In two rounds of open calls 140 proposals have been submitted out of which 25 companies have been selected for funding. The first round with 10 beneficiaries is now closed, the second round with 15 beneficiaries is starting in September 2023.

# Our Beneficiaries and Their Projects

## Assessment Voucher

### Austria:

- Salvagnini Maschinenbau GmbH
- GIG Karasek GmbH
- RO-RA Aviation Systems GmbH

### Greece:

- The SARM Project

### Ireland:

- Takumi Precision Engineering
- Total Precision Limited
- Total Plastic Solution Ltd

### Italy:

- DNAPhone Srl
- Industrie Saleri Italo S.p.A.
- Simem SPA
- Cotonificio Albini Spa
- Italbox industrie riunite SpA

### Latvia:

- SIA Jelgavas Tipografija

### Lithuania:

- Altechna R&D UAB

### Netherlands:

- Evers Agro BV

### Portugal:

- Jasil - J. ANTONIO DA SILVA, LDA
- Neutroplast - Indústria de embalagens Plásticas S.A.
- Comércio Design Industrial

### Romania:

- Carpatis SRL
- SafeSteel SRL
- Nordarin Prod Com SRL

### Slovakia:

- Bizzcom s.r.o.
- DB Biotech, a.s.

### Slovenia:

- ELVEZ d.o.o.
- Marovt d.o.o.

### Spain:

- E.CIMA, S.A.U.
- Marina Racewear, S.L.
- Metalmecánicas HERJIMAR SL
- Compañía Española de Algas Marinas (CEAMSA) S.A.
- Glasscom S.L.
- Laboratorio Geometrico SL

### Switzerland:

- MobyFly SA

### Turkey:

- Tekkan Plastik ve Ticaret AŞ

## Deployment Voucher

### Austria:

- Salvagnini Maschinenbau GmbH
- RO-RA Aviation Systems GmbH

### Germany:

- Orion Additive Manufacturing GmbH

### Greece:

- Pressious Arvantidis S.A.
- Trygons S.A.

### Hungary:

- Mirelite Mirsa Zrt.

### Ireland:

- Croom Precision Tooling
- Total Plastic Solution Ltd

### Italy:

- DNAPhone Srl
